COMMITMENT TO COMMUNICATION

Homeopathy is the most powerful healing modality that Dr. Tamara Hebbler (Doctor AMara) believes in. Homeopathy and nutraceuticals work on a very deep level, and catalyze powerful shifts. From the holistic perspective, the body communicates through clinical symptoms. **CLINICAL SYMPTOMS ARE NOT BAD.**

Doctor AMara needs a commitment from you to convey symptom pattern changes, as her expertise allows her to interpret those changes and modify the treatment protocol, or do research to gain insight and advice from other trusted colleagues.

Without this commitment of open, honest communication, holistic medicine does not work. Healing Hope is a consultation practice and we believe in truly individualized care and an integrated approach.

Do you agree to a partnership in healing, with open, honest communication and fully understand the importance of phone consultation?
